REPORT OF BOARD OF HEALTH.

The Board has received but few complaints the past year, the sanitary condition of the town being much improved over former years. There have been three cases of typhoid fever and one case of scarlet fever; six cases of diphtheria, and several cases of measles.

The typhoid and scarlet fever cases were at West Derry. The scarlet fever and two typhoid recovered. The diphtheria occurred at eastern part of the town, below Hubbard station. Dr. Sanders being the physician called, and also being chairman of the Board of Health, promptly took all measures to prevent the spread of the disease, closing the school, posting the houses and isolating the families. All recovered but the first child taken, who died a few hours after the doctor was called. Formaldehyde was used freely as a disinfectant.

REPORT OF THE SCHOOL BOARD.

In pursuance with a time honored custom, and in compliance with the law of our state, we take pleasure in again presenting our annual report of the public schools, with an accompanying statement of the receipts and expenditures, during the financial year, ending Feb. 15, 1900.

As the closing of our schools occurred two weeks later than usual, and as the printer is already awaiting our action, we shall be obliged to omit many details of interest in our school work, and confine ourselves to a few general statements relating thereto.

We trust however, the unfavorable conditions now confronting us, may in the future be overcome by commencing our schools earlier in the spring, rather than infringe upon our usual vacations, which at best, are none too long.

For the first time in the history of our district, there has been maintained throughout the several precincts, thirty-six weeks of school. The very commendable interest shown by the citizens of the district at our last annual meeting, in raising and appropriating a larger amount of school funds, than ever before, was not without its peculiar significance. Our teachers and scholars realized their earnest endeavors were being appreciated and were encouraged to renewed efforts, higher aims and a more thorough application to their work, which has not failed of most gratifying results.

Your committee feel that our public schools are gradually and surely coming to the front ; and as their future character will be determined, not wholly by the efficiency of the teachers and the co-operation of parents and guardians, but in a large measure on the public sentiment of the district. We extend to all interested, a cordial invitation to join hands in making our schools what the most sanguine would have them be. The improvement in the discipline of our West Derry schools in school rooms and in halls, about the school premises and upon the streets, has, during the past year, been decidedly noticeable. In district No. 7, by reason of a change of teachers for the winter term, the order as well as the general appearance of the school and the school room has been much improved. In district No. 4, the "big little boys," who during the autumn term, were inclined to trample upon the authority of their teacher, concluded to submit to the "powers that be," and unite with the teacher of the winter term, in redeeming the once fair name of this school.

At the suggestion of interested citizens, an article has been inserted in the school warrant, viz. : —

To see what sum of money the district will vote to raise and appropriate for concreting walks upon the school grounds at West Derry. If adopted it will cost for the two grounds, about \$200.

The insurance on our school buildings expires in the early part of the present year. To renew for the same amount —\$14,800, will call for an appropriation of \$240.
